Felix L. Boccucci, Jr.

Vice-President Regulatory Affairs Knology, Inc.; parent company

In its December 20, 2001 and September 29, 2008 Orders in APSC Docket 25980, this Commission determined that it could best meet its monitoring and certification obligations by requiring the "rural LEC Cost Companies" to file with the Commission a copy of their supporting annual interstate cost separation study, annual USF-HCLS filing and estimated USF-LSS filing for review and each of the "rural LEC Average Schedule Companies" to file with the Commission a copy of NECA's proposed annual USF-HCLS and USF-LSS amounts for review. Pursuant to the Order, the Company has previously provided the Commission with a copy of NECA's proposed annual 2009 USF-HCLS and 2009 USF-LSS amounts.

The Company further certifies that it will only use the federal high-cost support it receives during 2009-2010 for the continued provision, maintenance and upgrading of facilities and service for which such support is intended as described in 47 C.F.R. § 54.101. Those services, which are available to any customer in the Company's service area are: single-party voice grade access to the public switched network, unlimited local usage, dual-tone multi-frequency signaling or its functional equivalent, access to emergency services, including 9-1-1 service or enhanced 9-1-1 service, access to operator service, access to interexchange service, and access to directory assistance, and toll limitation for qualifying low-income customers.

The Company respectfully requests that the Commission notify the FCC prior to October 1 of this year that the Company is eligible to receive federal high-cost support in 2010. Any questions regarding this submission or the underlying documentation previously submitted to the Commission should be directed to Arlene Morgan at (706) 645-8116.

Respectfully Submitted.
